“Post-normal science and its ethical aspects - Doctoral projects and other projects in the making” A new workshop: 2 September – 4 September 2019

Second circular!

Dear Recipient of this letter,

Your participation is confirmed.

As you can see with the above list of participants, there have been some drop-outs. Those who are on the list have confirmed they want to participate. The others have simply not answered in time, and thus we assume a no-interest or no-opportunity. We need to start the planning now, due to available accommodation etc. If of you all come, we will be comfortably seated around the tables in the Stiftung! I still want to stress the proviso that the workshop will depend on some SVT support as outlined earlier.

I have attached a preliminary schedule for the talks. I hope this works for you. As usual, the seniors are free to present a lecture if they feel like it, or if people want to hear them. They are marked with a question mark! There are still some free slots that we may use as we see fit during the workshop. Suggestions are welcome.

Ulrike can assist you in your travel plans. If you want her to arrange your travel or have it pre-paid, contact her and discuss this with her. In particular, I ask Veronika and Francisco to contact Ulrike with a proposal of travel arrangements since you are from outside the Bergen University. All travels and accommodation should stay within the 550,- euro limit as detailed earlier.

In order to keep the budget, and secure inexpensive tickets we require a final and binding **registration** to the workshop by **25 April 2019**. **The registration form will be sent to you by Ulrike soon.** Again, if you have any questions, do not hesitate to send an email to Matthias Kaiser

(matthias.kaiser@svt.uib.no) **and** to our administrative officer Ulrike Horway (ulrike.horway@asfpg.de). In the meantime you may think about what you would like to present.
